## Experts Believe War Definitely "On" In The Air

By WEBB MILLER

British United Press. Exclusive Cable to The Edmonton Bulletin.  
LONDON, March 20.—Ablotative peace manoeuvres have collapsed and it appears today that the war is on in the air.

## PREMIER GIVES STATEMENT AS CAMPAIGN ENDS

Aberhart Expresses Confidence Government Will Be Returned

CALGARY, March 20.—Premier William Aberhart was busily engaged Wednesday in final preparations for his provincial general election Thursday and expressed confidence that the Alberta electorate would return his government, in view of the many actions taken to protect the owners and to improve conditions generally.

On Wednesday at his campaign, the premier issued an appeal to the Alberta electors to vote for Social Credit candidates on Thursday and return his government.

Premier Aberhart said in the following statement:

"Only by voting for the Social Credit candidates can you ensure the continuation of our fight to free the common people from the economic bondage of the financial interests."

"The four and one half years the Social Credit government has produced from the forewings of the mortgage companies, many thousands of our farmers and home owners, led hand and foot, under heavy contracts."

"If we are returned to office, we will continue this fight to force the mortgage companies to reduce their outrageous interest charges and cut debts to a reasonable and payable basis."

"Through our Treasury Branches, we have shown the people how to use their own credit. We will extend these branches to all parts of the province and with our Provincial Bank make loans to our people to free them from the clutches of the banks and mortgage companies."

"CONSTANT AIM"

"Home security is our constant aim and under our new Housing Act, will assist our people to build homes at a per cent interest with repayment in small instalments up to seven years."

"We have fought a winning battle for the common people who support the Social Credit party on election day will bring this fight to a successful conclusion and free our people from the shackles of high finance for ever."

## War History Repeated In Battle Zone

British United Press. Exclusive Cable to The Edmonton Bulletin.

LONDON, March 20.—The new phase is likely to consist of Allied bombings of German objectives—already started last night on the island of Sylt—followed by a heavy German offensive against British shipping from the air.

The British public, as reflected in the House of Commons and the press, was in a grim mood, in favor of getting on with the war.

The Sylt raid was the biggest air operation of its kind of the war. It involved the launching of a huge energetic war policy which the British public is demanding.

These forces were more manoeuvres, apparently never intended for anything as seen and heard, as it seemed to British, the objective was to undermine the Allied war effort.

OPINION HARDENED

Many British opinion seems hardened on Wednesday that no peace can be considered which leaves Germany's military power and her political and economic dominance of Europe intact, and there is no doubt that the prospect that Adolf Hitler, even will abdicate that position, even if forced, the British seem to realize that the war cannot be won by the blockade alone, and that the issue must be fought out with guns eventually.

However, unless Hitler launches the attack, and there is no evidence that a Western Front offensive is being prepared, major land operations may be postponed for some time yet.

Prime Minister Neville Chamberlain in the House of Commons yesterday emphasized that Britain would not be hurried into uncertain adventures.

And from the military viewpoint there is no overwhelming reason for Britain to launch an attack on the western front. The further it is delayed, the better the economic reasons. Opinion here is that "real war" will be generated by the economic situation. That may be a considerable time.

BOTH SIDES READY

But, as Chamberlain pointed out, Britain is ready for a few hours of delivery on a long day's notice. Mr. Chamberlain said that the British are ready for a long day's notice of land warfare.

It is an appropriate comment that if an appropriate battle had been part of a 100,000 man expeditionary force in Germany, it would have been marked to fight Germany in Sweden if Hitler attacked Sweden.

It is a clear indication of German intervention in Finland.

**HORE-BELISHA RESIGNS FROM LIBERAL CHAIR**

LONDON, March 20.—Leslie Hore-Belisha, former secretary, resigned today from the chairmanship of the Liberal National party because he wishes complete freedom to express his views.

The Liberal National is a government group with 33 members in the House of Commons, including Sir John Simon, chairman of the exchequer. Sir John presided at a private meeting of the group and thanked Mr. Hore-Belisha for his services to the party.

Yesterday Mr. Hore-Belisha, who resigned as war secretary in January, attacked Prime Minister Chamberlain's defense of the Allied stand on Finland, declaring the Allies were in a position to strike at German supply sources by their failure to intervene in the Russo-Finnish war.

**FRANCO-BRITISH POSTAL STAMP TO BE ISSUED**

LONDON, March 20.—Something new in philatelic prizes will be issued by the British and French governments when France and Great Britain issue a joint Franco-British postal stamp, it was learned today.

Postmaster-General C. G. Thynn said in a defense minister's office communications, Jules Jusserot, agreed on issuing such a stamp to symbolize allied solidarity.

Final Campaign Rallies Held For Thursday Election

Social Credit, Citizens' State and C.C.F. candidates for Edmonton seats, in Thursday's provincial elections held their final campaign rallies in the city today. Summary of the Social Credit and Citizens' State campaign appears on Page 3, while the C.C.F. summary appears on Page 12 of today's edition.

Manitoba Scheme Would Be On Municipal Basis

WINNEPEG, March 20.—Institution of a crop insurance scheme on a municipal basis is recommended by the Manitoba Board of Agriculture.

The report, submitted to the Premier John Bracken, the report was compiled by the Economic Survey Board appointed by the provincial government.

The recommendation is conditional upon the province before the plan is put into operation.

The report maintains that a crop insurance scheme, if worked satisfactorily, would relieve municipalities of some of their most embarrassing problems. It would also give an element of stability to public institutions and bring about a fundamental change in agricultural economy.

The Economic Survey Board made a detailed study during the last year of annual precipitation in all areas, to the hazards of drought, hail and frost, and insect pests. It made a thorough analysis of crop returns in the 14 years of the province since the last 16 years, making it possible to estimate tentative premium rates and minimum guaranteed yields.

**Nazi Plane Flies Over Shetlands**

LONDON, March 20.—A German airplane flew over the Shetland Islands today. Air raid warnings were sounded. British fighting planes went up to meet the Nazi aircraft.

The German plane was driven off and no bombs were dropped.

**Stanley Replies To Britain To Fight War In Own Way**

LONDON, March 20.—War Secretary Oliver Stanley replied to critics of Britain's effort to force Germany to fight in her own way, by declaring that the Allies were in a position to strike at German supply sources by their failure to intervene in the Russo-Finnish war.

Stanley said that people across the ocean are thinking "how are we going to keep out of it?"

"No one can remain indifferent to the war," he said.

"Do they (neutrals) really think that if we lose life we can go on as they have?"

"An enemy may be a good barrier to aircraft, but it's no barrier to us," he said.

Mr. Stanley said Britain is fighting for the sake of Germany's freedom and the rights of the people who live in the United States would have said, "Why aren't you fighting?"

"Today people in the United States are asking, according to Stanley, 'Why aren't you fighting?'"

"We can remain indifferent to the result of the struggle," he said.

"They may be lucky. We may fight their battles for them."

## British Bombers Wreak Havoc On Sylt

Canadian Press

TORONTO, Denmark, March 20.—Shore observers today saw that one of the four anti-aircraft towers between the mainland and Sylt was missing after the British attack was resumed with violence almost equal to the great seven-hour raid of last night and this morning. Fog lifted at 4 p.m. (8 a.m. M.S.T.) to permit observers some idea of the damage caused by the terrific bombing. The missing anti-aircraft tower apparently was the victim of a direct bomb hit. The towers are manned by machine-guns.

Two reconnaissance planes, flying over the course of the R.A.F. raiders in a bold daylight flight, strafed across Sylt at 10 a.m. today, 35 hours after the last British raiders had landed at their base, to photograph the damage done. The photographs will provide an official record of the most daring aerial exploit of the war thus far.

The first raid of the war, and certainly one of the most persistent, the British planes dropped bombs on Sylt during the night, and according to the Air Ministry—"the most extensive damage."

## C.C.F. CHARGE IS DENIED BY J.G. GARDINER

Never Said Wheat Could Be Raised At Cost Of 30 To 40 Cents

KINDERLEY, Sask., March 20.—Hon. J. G. Gardiner, federal minister of agriculture, in a public address here yesterday denied that he had ever stated that wheat could be produced by western farmers at a cost of 30 to 40 cents a bushel.

He said that M. J. Coldwell, national chairman of the Co-operative Commonwealth Federation, claimed he had made that statement in the house of commons.

Mr. Gardiner stated that it was ridiculous to think that anyone using the whole people of Canada to put up \$5 to \$8 for every dollar the farmer put up under the present farm assistance act should make such a statement.

He said that what he made clear to the house was that the farmer was out of pocket \$6 to \$8 an acre in putting in and taking off his crop. If he did not get that back he would require to go into debt or lose his land for putting in another crop.

The present farm assistance act made provision for every farmer receiving back approximately \$6 to \$8 an acre on his seeded wheat acreage, said Mr. Gardiner.

The federal minister said he perceived the house to put up from \$100,000 to \$1,000,000 a year to make these payments possible while the farmers were only asked to pay \$2,000,000 and that no one asked where else in Canada is making such statements regarding the C.C.F. in Saskatchewan was making this. It is the best indication that the statement had no such influence upon the rest as Mr. Coldwell is trying to infer.

## Saskatchewan to Cancel All Relief Debts in Province

REBUILT, March 20.—A statement of relief debts and agricultural re-establishment advances, totalling more than \$20,000,000, made to Saskatchewan residents during the relief years 1937-38 and 1938-39 is now being effected by the Saskatchewan government.

The cancellation is made possible by action of the federal government in authorizing the cancellation of all indebtedness for relief and agricultural aid advanced from Dominion treasury during these two relief years.

## Ship For Sam

Visual evidence that Uncle Sam's "big navy" program is coming right along was provided in the recent double-launching of the U. S. S. Kearny and her sister ship, the U. S. S. Purnell, at Kearney, N. J. The Kearny is pictured sliding down the ways.

## RICH CARGO OF OPIUM SEIZED ON NAZI SHIP

GIBRALTAR, March 20.—A \$1,000,000 opium cargo was seized from the German freighter "Therapia" was captured off the African coast last November, it was announced Thursday in the ship arrived here for examination in the dock.

Seizure of the 7,000-ton ship, which a prize crew first took to Freetown, Sierra Leone, on the morning of March 10, was announced in London Nov. 8.

A street in London is named "Broad and Bull's."

## PREMIER SAYS SOLDIERS GET SECRET VOTE

Not Government Duty To Make Party Affiliations Known Says King

OTTAWA, March 20.—Prime Minister Mackenzie King, in a prepared statement, declared last night that the government had no responsibility to see that party affiliations of candidates were made known to voters, and also denied statements by political opponents that the active service vote was not secret.

Of statements relating to failure of candidates to show party affiliations, the prime minister said opponents of the administration had tried to make it appear that was a government responsibility.

PARTY NOT RECOGNIZED

"The complete answer to this misrepresentation of the facts is contained in the electoral laws of Canada which, in the particulars mentioned, have been the same since confederation," Mr. King said in a 1,000-word statement.

"Under these laws no political party is recognized as such. The printed ballots and the printed lists of names of candidates contain only the names of candidates, their addresses and occupations. The responsibility of ascertaining the party affiliations of candidates is that of voters themselves."

"Since political parties are not officially recognized by the constitution it would be improper for the officials who administer the election act to attempt to give party labels to the various candidates."

Mr. King said it had been alleged that the vote of active service soldiers is not secret. He described the method by which the active service vote is taken, under which the voter marks his ballot secretly, placed it in an unmarked envelope and which is then placed in a second envelope bearing the voter's name and address.

SECRETLY SAFEGUARDED

The outer envelope and contents is then posted by the voter himself to the returning officer for the area in which the ballot is counted. The two envelopes, separating the unmarked one in the ballot box and the marked one in the presence of scrutineers are later opened and counted.

"At no stage of the proceedings can the name of the candidate from whom the voter has been cast be read in conjunction with the name of the voter or the voter's envelope," Mr. King said.

"In every stage of the receiving,

## BALLOTING SAID "VERY HOT" IN CANADIAN ARMY

British United Press. OTTAWA, March 20.—Col. Herold Lettice, special returning officer for the Active Service Forces in Manitoba, Ontario and Quebec, today reported that voting was "very hot" and his staff was "fairly swamped."

The balloting increased steadily since it began last Saturday. He said that in proportion to population, voting in all the nine provinces appeared about equal.

## BATA FIRM IS NOT ASSISTED EULER STATES

Czechoslovakia Company Is Risking Own Money In Dominion

KITCHENER, Ont., March 20.—The Bata shoe company was not given any assistance either by the Canadian government or himself, Hon. W. D. Euler, minister of trade and commerce, declared last night in addressing the first political meeting he has attended in Waterloo riding, where he is running as Liberal candidate.

A member of the audience employed in a St. Jacobs shoe factory brought up the question, declaring the Conservative candidate, Dr. Stanley Leavine, had charged that the local shoe factory would be out of business within a year if "Bata" is returned to the cabinet and Bata is returned to the cabinet.

"Along with Mr. Lapointe, (justice minister Ernest Lapointe), I was of the opinion we had enough shoe factories in Canada," Mr. Euler declared in stating he had nothing to do with the Bata company coming to Canada from Czechoslovakia.

"But if a man with capital wants to risk his money in Canada, there is no way we can stop him. We did, however, prevent the entry into Canada of foreign workers who would be employed at work which Canadians could do."

The Bata Shoe Company established a plant last year at Friesford, Ont., 10 miles northwest of Belleville.

checking, sorting and counting of the ballots, scrutineers appointed by the leader of the opposition are present and have a duty to perform. It will thus be seen that every possible safeguard of secrecy has been provided by the active service voting regulations."

## HUGE AMOUNT SPENT ON WAR BY DOMINION

\$142,573,838 Expended On War Supplies Up To March, 1940

OTTAWA, March 20.—The war supply board yesterday issued a list of transactions of the board, headed by Wallace R. Campbell. The defense purchasing board issued contracts totalling \$142,573,838 up to Oct. 31, and the war supply board's total from Nov. 1 to the end of the year was \$19,835,506. From Jan. 1 to March 1, the board's transactions reached a volume of \$80,804,252.

BUSIEST DAY FEB. 7

The January total was \$29,568,181 and February \$31,038,070, and the busiest day was Feb. 7, when 68 contracts to a total value of \$17,144,790 were let. Heaviest items on that day were for anti-aircraft material vessels, for which there were contracts to six shipbuilding firms totalling \$16,714,000.

Contracts cover every article necessary for the three fighting services, except for the equipment for the commissary and the headquarters organizations all over the dominion. There were included contracts for everything from knives and forks to meat from poisons to gorgias, and from meat to machinery.

While details of the larger contracts have already been made public, the smaller items helped build up the aggregate cost of the war effort. Contracts for \$400 worth of brass pins were listed beside such large items as a \$300,000 payment towards purchase of a fleet of West-lander army co-operation aircraft.

MANY FOR CLOTHING

Many contracts were for clothing the forces, feeding them and repairing their equipment. Military transport received a share of attention with orders for trucks, automobiles, tractors and gasoline. Aviation contracts included building of air bases, aircraft, spare parts and repair kits, and such warlike items as bombs, bombs and bombs.

Shipyards benefited from the anti-aircraft vessel contracts, which totalled \$27,458,880, spread among shipyards, all over the country. In addition, cost of converting the vessels Prince David and Prince Robert into armed merchant cruisers aggregated \$1,353,000.

Some of the largest contracts went for aircraft and aircraft engines and parts, with such large individual contracts as \$500,000 for the Napier Aviation Limited, Montreal, \$2,191,716 for Fleet Aircraft of Canada at Fort Erie, Ont., and \$2,087,845 for de Havilland Aircraft (Canada) at Toronto.

BIG PLANE ORDERS

The government ordered \$1,108,000 worth of parachutes and \$201,337 worth of winter flying suits, as well as \$308,400 worth of bombs, \$225,470 worth of aircraft fuel, \$1,000,000 for the Napier Aviation Limited, Montreal, \$2,191,716 for Fleet Aircraft of Canada at Fort Erie, Ont., and \$2,087,845 for de Havilland Aircraft (Canada) at Toronto.

Among the larger contracts for military and naval stores was a single item of \$168,813 for Khalil cloth and \$400,000 for Diesel electric generators. The navy need for such charges totalled \$16,220 with an additional \$37,000 for carriages and shells.

The army required Bren gun tripods to the extent of \$50,580 and artillery mountings worth \$55,000 as well as \$173,785 worth of cartridges.

## CANADA MUST MAKE SURE OF OWN ECONOMY

PORT ARTHUR, Ont., March 20.—Hon. C. D. Howe, transport minister, told an election audience here last night that in the first year of the war Canada would spend \$300,000,000.

Mr. Howe, seeking re-election as Liberal candidate in Port Arthur for the March 26 Federal elections, declared all this money would be raised in Canada and therefore, the Dominion must make certain of its internal economy.

Mr. Howe maintained the Liberal government had chosen the best men in the country for the war supply board. "I think our buying has been well done. We have secured good articles at the lowest possible cost. Already we have spent \$140,000,000 for equipment. We have bought the cost of our buying our soldiers in this war is three times as great as in the last war."

Chas. Culpeper Leaves \$8,000,000 For Charity Work

NEW YORK, March 20.—A trust fund for charitable, religious and educational organizations, consisting of stock of the Cow Co. Bottling Company of New York Inc., with a current market value of \$8,000,000, is to be set up under the terms of the will of the late E. Culpeper, founder of the company, was announced yesterday. Culpeper died February 4.

## WAR EFFORT PROSECUTED WITH VIGOR

Senator Cairine Wilson  
Defends Policies Of  
The King Government

By Canadian Press Staff Writer  
ST. BONIFACE, Man., March 20.—Senator Cairine Wilson defended both the peace-time and war-time policies of the Mackenzie King government here last night.

Despite the turmoil of the general election the war effort is being vigorously prosecuted in Ottawa and the work of the government is making steady progress, she said in an address in support of Dr. J. P. Howden, Liberal candidate in St. Boniface.

"The government commands the support of the people in every province in Canada," she said.

She recalled the deliberations taken at the war session of parliament in September when it was determined that Canada must take a determined stand in its support of Great Britain and France.

"The first serious problem had come when Maurice Duplessis, the former premier of Quebec, challenged Canadian participation in the war."

"Dr. Robert Manion, the Conservative leader, did not raise his voice to drown Duplessis," she said.

She also charged that the present Conservative or National government organizer in Quebec had also opposed the Dominion's participation in the war.

She was puzzled to know how Dr. Manion could term his government national if he succeeded at the polls on March 26. In the last parliament most of the Conservative members were from Ontario, she said.

## Side Glances

By J. S. COWPER

The German government—which means Herr Hitler—has ordered the confiscation of all astrological calendars and year books, on the ground that they are disseminators of "foolish superstitions." It's less than a year since word came out of Germany that Herr Hitler had an advisory committee of four astrologers, and that he dates his coups on their advice. Evidently they favor the month of March, which comes under the zodiacal sign of Aries the Ram, for—save the raid on Poland—all of Hitler's drives took place in March.

Does Hitler regret that he didn't defer his march on Poland till March? Perhaps the astrological predictions made in regard to himself, are disturbing to German morale. The Ram will have a tough job if he butts his head against the Maginot Line. Ludendorff failed to break the western front in his attack on March 21, 1918. That led to his defeat.

Several times I've penned a little jeer at astrology in this column. I still can't overcome an attitude of doubt towards this empiric pseudo-science. A few months ago, hearing of a young man credited with many exact predictions based on serious study of astrology, I made a

**WE'LL GIVE IT A FAIR TEST** test. From a postal box address, under an assumed name I mailed him by place and time of birth and requested a horoscope. I was astounded to get back an accurate reading of influences and happening in the past, and advice on certain unmentioned matters then causing mental anxiety. Last week he sent me a further eight pages of prediction on events and problems likely to happen in the remainder of this year. I'm going to check on them.

Whether correct results could make me a true believer I don't know. Skepticism is a habit of mind, a readiness to look at my own conclusions with a following disbelief. On the function of prayer, I lost a bayonet when marching and manoeuvring on the hot sands of Aldershot desert. The impious thought came that if my prayer was directed, and that I might be allowed to be able to get back my bayonet by prayer.

Tramping, wearied through a village that evening after a hard day in which many men had dropped out and two lieutenants and a sergeant had been killed, I found my bayonet in the hands of a youngster. What proof to a believer! But still I couldn't see the Governor of the Universe putting itself out to hum a youth's whim. I was not a true believer. I was a miser who would be beat. Hitler or no Hitler, I'll check these astrological predictions at the end of the year. So many hidden influences affect our lives, that another would be no marvel.

The people who talk as if the war in Europe hasn't seriously begun because armies are not being slaughtered and cities razed to ruins have little realization of the toll that is taken in mine and submarine warfare—the loss of merchant fleets and the horror of being cast helpless in small boats in the turbulent waters that surround the British Isles. It takes one who has faced the perils of the sea and felt its cruel might, to realize the sufferings of men in such plight.

Yarning in the dog watch the other evening with Captain Lance Lawrence at his home on Cameron street, he talked of men washed overboard or thrown from plunging yards into the sea, with comrades helpless to give aid. It isn't only sailing craft that can't heave in time to lower boats; the chance of anyone getting aid from a big steamer under way in a heavy sea

"Best seaman I ever saw," says the retired skipper, "was sailing in the full-rigged ship Clackmannanshire under Captain Cowper. (No kin of this writer). We were running our casting down when a man was washed overboard. The skipper was coming on deck, and he threw the man a lifebuoy. Without excitement he ordered

the ship hove to, then slowly worked to windward till he got the ship in a position to heave to again, and let her drift down almost on top of the man. Cleverest bit of work I ever saw—and all done without shouting and excitement." After that you'll be sorry that the skipper let a huge chunk of ambergris pass by, thinking it was a great chunk of grease. He'd have made a

Yet with all their hardships and denials, these old sailing ship men can't overcome their love of ships. I had the pleasure of Captain Lawrence and his good lady on a few little trips on my cruiser when they were down at the coast a couple of summers ago. When it came time to

return to Edmonton, Captain Lawrence paid one last visit to the coal-hulk *Melanope*—once one of the grandest sailing ships afloat. And how did he take farewell! He went below and filled his lungs with one last smell of the bilge. What memories were stirred. Just as all cats are gray in the dark, so all ships smell alike in the bilge.

Not the delicate odor of mignonette is more filled with romantic dreams of youth than a lungful of bilge odor to an old salt.

### A FRIEND WHO FAILED

With deep sadness the minister told how a merchant friend, a public official and an officer in the church, had suddenly installed gambling machines in his place of business. The man had not only failed the cause of righteousness, but he had also failed his friend and leader.

That precious hour underestimates the  
 moment when the friends of the Lord  
 trusted and gave back to Him and on the Gospel.  
 At least there is this reward in such tragedies;  
 one is drawn closer to the Saviour by sharing  
 His experience. Most persons have to undergo  
 friendship's disloyalty, at some time or other.  
 So did Jesus, the friend who never fails.

In hours when earthly friends fail us, do Thou  
 hold us fast in deeper, more understanding loyalty,  
 O friend of our spirits.

Read John 15:1-17.

## Your Health — By Dr. Frank McCoy

warden of the arteries is to relieve fermentation in the intestines and to stimulate the circulation. To this purpose I have found the best aid is the use of the sponge bath. For 10 or 12 days, the patient using an abundance of orange juice or tomato juice, and a few drops of cod liver oil, will be able to get along. Only one kind of juice should be taken throughout any given day. The sponge bath should be used at different times on the following day if desired.

For the last two patients I used the sponge bath daily, and 1 or 2 times a day, as the case required. The food will make the patient feel better in every way and is doubly so if the patient is given a little exercise, usually reducing the pressure.

The fast is especially valuable if the patient is overweight in the way of reducing the excess poundage. Generally speaking patients with hardening of the arteries will feel their best and get along best when thin, rather than overweight. After the fast, the patient must

**CART OF CHARACTERS**  
ANN KNOWS, certain daughter of a gambler, Ann is a woman of many parts.  
PAUL HAYDEN, slick room boy with ambition.  
STEVE, CLAYBOURNE, wealthy playboy.  
CLARA BROOKS, dime store counter girl.  
BROKE TEST, vulgar debutante.  
Yesterday, Ann returns the stolen jewels asks for a job instead of a bribe. She hires Steve as a housekeeper, wants her that the house is well under way. Ann finds the very same nonco-operative. After a very late day in some upstairs when Steve Claybourne enters.  
**CHAPTER XXV**  
H. old timer. Steve said picked up. "Toll the fact damned that her swain has arrived." He gasped. "Ann— as if only half believing in his eye."  
"Hello, Steve."  
"Is that you, Ann? I only took one drink— I swear I did." Shutting his eyes, he shook his head violently, then stared at her. "It's true. For a minute I thought I conjured you out of thin air."  
"I'm here all right," she admitted, sitting down on the second step. "It's a while left of you, but I'm here all right." Steve sat down beside her. "Sweet to see you, Ann."  
She nodded, resting her chin on both fists. "I'm the new housekeeper."  
His laugh was explosive. "You're what?"  
"The new housekeeper," he repeated. "Mr. Temple hired me to bring order out of chaos in this house." She set her teeth. "And I'll do it— it kills me."  
"Well, I'll be— Look, Ann, I thought you were married by now."  
"I thought— you said—"  
"Paul went away." Saying it, she felt the sting of tears. She looked at Steve and Steve also rose, looking up at her.  
She shook her head, fingering the little silver bracelet.  
"I've never forgotten you, Ann. You pop out of my thoughts at every turn."  
She smiled vaguely, her mind on household troubles. She and Plunkett would have a showdown in the morning. Plunkett and all her relatives couldn't lick her.  
Steve still gazed at her. "Guess I'm in love with you," he said. "Guess I fell in love with you that night at Clancy's."  
"You're being very silly, Steve." "I don't seem ally to me." He kept looking at her, a half frightened expression on his reckless young face. "I never intended to fall in love with anyone," he went on as if to himself. "Seeing you again— well, I've gone off the deep end."  
"Ann moved up a step. "Well, just scratch the last few remarks from the records," she said lightly. "Keep your mind that I'm an upper servant in this house."  
"I'll keep you in mind. If I found you scrubbing down the back stairs it wouldn't change the way I feel." Steve flinched down the stairs in white tile. She touched Ann's arm with a friendly little gesture as they passed. She called, "Evening, mister."  
"It's beautiful," Steve responded in an abashed, muffled tone.  
Ann went to bed and she did not plan. She slept. Refreshed the next morning she took a firm grip on the management of Mr. Temple's difficult household. She breakfasted alone with her employer, sitting demurely behind the coffee service. "Everything all right?" Mr. Temple asked.  
She nodded. "It will take a little time."  
"My top sheet was fine." Ann smiled. "Highball all right?" "Just right. The house feels different. Ann, I feel certain I can dump out my problems on your shoulders, but I usually relax and am disturbed myself last night. You'll be a great help to the kids. I'm glad you're here."  
"Thank you," she said with a little warm glow. When the chauffeur had driven him to the city, she attacked her duties with new fortitude. She went first to the kitchen. "I'll do the ordering and planning from now on, Plunkett," she said firmly.  
The woman's beady eyes narrowed.  
"After this, don't make the least slip!" Mr. Temple is eating his toast. It was cold this morning.  
Plunkett grunted.  
"What food market have you been patronizing?"  
"The Superior."  
"May I see yesterday's order slip?"  
"I don't know where it is!" Plunkett spoke harshly.  
"Give it to me at once."  
"Find it if you can," the woman promised.  
"Plunkett—you will speak courteously to me or I will find another cook."  
"I keep the slips in that drawer," Plunkett nodded her small, round head.  
Ann opened the drawer and sketched the dates on a number of market slips. She chose one. "Hm— four dozen boxes of soap flakes. Where are they, Plunkett?"  
"In the laundry—where do you suppose?"  
"Plunkett— Ann's sweet voice had a sassy ring.  
"Well—"  
"Six dozen times. Why six dozen?"  
"Mr. Temple likes em in his highball."  
Ann opened the huge refrigerator. Five times she went in a little wooden basket. "Where are six dozen five and a half dozen?" she asked crisply.  
Plunkett's face was scarlet. "I can that refrigerator," she fumed. "You keep out of it!"  
"Where are the linens?" Plunkett whined. "Me and the girls like linens—"  
Ann turned away. "Beginning now, Mr. Temple will pay only the market bills which I have okayed," she said.  
Plunkett was washing dishes.

## MARK BAYLOTS IN ORDER OF VOTE CHOICE

C. H. Grant, K.C., Explains  
Election System To  
Women's Club

That in every constituency in Alberta, whether the voting is under proportional representation, or under the first past the post system, or whether it is under a first past the post system with a transferable ballot as in the case of the Dominion of Wales, the only way in which a voter's preference will affect the final result is to mark the ballot fully, putting first choices first, and then voting for the other candidates in the order given to the Women's Liberal Club on Thursday evening by Charles H. Grant, K.C., in a full and thorough explanation of Alberta's system of voting.

Figures must be marked in full, and Mr. Grant pointed out that in the order of their choice of candidates, and in the order of their preference, the voter should mark 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, ## HOLLYWOOD, March 20—Once a week I go through my notebook and try to interpret the scrawls, scratches and odd symbols which I have put down to remind myself of things I might forget.

It seems that last week there were some of the nastiest I made "Mr. H. Nix Biscuit." That one's easy. Mr. Nix Biscuit was Howard's name at Santa Anita last Saturday when Sebastian was because she was afraid he would lose him. Mr. Howard loved the Biscuit so much that she broke into tears and almost overcame when he left her. Having seen him broken in from previous stunts she missed seeing and hearing one of the greatest ovals ever paid up. Sebastian's appearance.

"A. G. Grapevine, Blane" You might think, at first glance, that this is about a man named M. A. G. Grapevine. Blane, but it isn't. The "A" is for Armstrong and the "G" for Galloway, who'll fight here Friday for the lightweight title. The grapevine part concerns a somewhat curious incident from the fact it is going to end in a draw. The Blake is General Blake, who'll referee the fight, all respects to the company. Since this time was made I have learned that Manager Edna Maud has been kept down in the mudstone for fourteen days. Armstrong and the waterlogged champagne will use the same straw-bow gloves as his up.

### AND HANK WILL PAY THE SHOT

"O. O. Bird" This is the most clear to me. It means that I was five bucks to Broderick Crawford, the original inmate of Mike as Mike Bird. It means, going, and taking the shot and strength, no consideration. I am going to pay him to fight. I still feel, however, that he should have been an even two-thirds shot, instead of one.

"Baker, Crosby, Bailey" This is a way to go with Jack and Ben Baker and Dave Bailey, the director, at Universal studio. It was a bunch of confounding nonsense. I wanted to see three beautiful actresses, find out what change there was for a glimpse before they were sent back to go to the studio and see the movie. All three were sent back to go to the studio, and the one who was sent back to go to the studio was sent back to go to the studio.

### VERY CONFUSING NOTATION

"Clapper, Double B" This one confused me for a while, and so it does now. It is a note on the reversions of the motor of a clipper plane. Then I remembered, I just saw the clipper plane, and then Clapper Smith, who's the owner of the clipper plane, and then changed the mind and remained at Villanova. He executed the biggest football play in history. Noting, now, you find, a transcontinental double reversion, with an entire reversion being made through a double reversion. "Mr. Mark, Wills" This was to remind me what T. Cobb said about Connie Mack. T. Cobb told me that when he went to the Athletics after Mack was going in the American League he would have given that no one would have told him that the Athletics were going to be in the American League. He had been in the outfield a week before Connie was shifting him here and there—and correctly—for hitters Cobb had been playing against for a decade.

"Devery Hills 38085" Wait a minute. That's none of your business.

## SHORE'S INDIANS WIN OPENER 5-1

SPRINGFIELD, Mass., March 20

—Newman Turner (former baseball pitcher) "hot iron" last night as the Shore Indians prevailed over the Springfield Americans in the opening game of the New England League.

Turner, who pitched for the Americans last season, was in the line-up for the Shore Indians. He pitched a complete game, allowing only one run, three hits and one error. The Shore Indians won 5-1.

Springfield's first baseman, Schultz, in the third while the Shore were celebrating the victory.

Edward Jackson, completed the first near the close of the game.

### Starry Ranger Trio Gets Three of Four Goals In Blistering Game

By SIDNEY GRISON

NEW YORK, March 20.—The Rangers, ripe with power and well supplied with burning speed, broke Boston Bruins 4-0, dropping last night in the opening game of their best-of-seven Stanley cup semifinal series. It was the Rangers' game from start to finish.

### THOROUGHLY WHIPPED

The Bruins' National Hockey League champions, and defending cup holders, had not been as thoroughly supplanted in two seasons as they were by the Rangers last night. A crowd of 14,421 watched the change in crests in the second and third periods.

The series now moves to Boston for the second game Thursday night and the third Sunday night.

Midway through the second period, the Rangers struck for the first goal. Nick Polk Watson standing unopposed at the goal mouth and seeing the puck, shot it into the net.

### KEPT THAT GOAL

That would have been enough for the Rangers' first goal, but they were not done. They scored again in the third period, when Nick Polk Watson standing unopposed at the goal mouth and seeing the puck, shot it into the net.

## Syl Apps Scores Twice As Leafs Beat Hawks 3-2

TORONTO, March 20.—Sylvanus Apps tied the game in the third period and scored in overtime last night to give Toronto Maple Leafs a 3-2 victory over Chicago Black Hawks before 13,078 customers as they began their first round of the National Hockey League's Stanley cup play-offs.

The centre star from Parlati, Ont., who will seek election to Canada's parliament next week, broke up the game after six minutes and 35 seconds of extra play to clinch a decisive Toronto night from behind. Chicago scored twice in the first and second periods, but Apps scored twice in the third period to tie the game. Apps scored twice in the third period to tie the game.

## Switzerland Calls 70,000 More Men To The Colors As Tension Mounts In Europe

Soldiers of the Swiss infantry, armed with light machine guns, are shown in action somewhere in the Swiss Alps. Skis are being used as supports for the gun.

Since the outbreak of war last September, Switzerland has been keeping a vigilant eye on the border, just in case Germany may attempt to cross Switzerland in an attempt to outflank the Maginot line. Latest reports indicate a rising tension in Switzerland as 70,000 men were called to the colors ahead of time. The Swiss government is reported to be planning evacuation of areas the German army would likely cross should they attempt a blow at France by violating the renowned neutrality of tiny Switzerland. In this evacuation would be included the city of Zurich, which has a population of 312,000. Every able-bodied man in Switzerland belongs to the army and every Swiss man is a crack shot, training in rifle shooting being a weekly routine. Swiss Alpine infantry, encamped in ice and snow at an altitude of over 7,200 feet, are shown, above. Huts of snow and ice serve as shelters where the men, equipped with sleeping bags, often spend several nights. Switzerland can muster an army of 300,000 men, trained in the art of mountain fighting.

Here you see the three largest liners afloat—the Queen Elizabeth, 1,030 feet long; the Queen Mary, 915 feet long; and the Normandie, right, 931 feet. The total tonnage of the three is 548,655.

## Yanks Are Coming to Canadian Army

As it was in the last war before the United States took a hand, so it is in this one. Young Americans, responding to the lure of adventure, are streaming across the border into Canada in hopes of getting "over there" to fight. Americans from city tenements, suburbs and farmsteads are drilling today in Canadian military camps. Above are three American recruits engaged in a sendoff with Canadian buddies at Camp Lansdowne, Ottawa. They are, left, Joseph Zumbrell, Scranton, Pa.; Philip Stegner, Washington, D.C., who is shown shaking hands with Omer Jette, Albany, N.Y.

Top left, multiple machine guns (for a "Chicago typewriter") aboard turret to protect crews. Lower left, the mighty "mouthpieces" of the campaign of unrestricted warfare: being conducted by German submarines and by reports that Russia is supplying her ally with Red battleships to replace those sunk by the 4-line. French authorities declare the Nazi submarine fleet is composed of the latest type craft, recently constructed. The Allied fleet, however, appears fully capable of coping with this newest menace. France is far stronger in naval manpower than Germany, with 30,000 Frenchmen to 15,000 Germans. a French battleship. Top right, naval anti-aircraft guns with movable of a French battleship. Lower right, the French fleet on parade. Britain lost the Jut, with 22,000 men, while Russia has only 15,000. The French and British fleets are working in close cooperation. Latest development is that they have dispatched a joint squadron to patrol the northern coast of Russia to prevent shipment of Russian supplies and submarines to the Reich and to prevent any Nazi ships from taking refuge in Russia. Admiral Nikolai Kuznetsov, Russian naval commander, is reported to have made a flying trip to Murmansk to inspect the Soviet Arctic fleet as a result of this Allied move.

# YOUTH TRIES CLEAR MAN ON CRIME COUNT

Says Partner Knew Nothing  
About Theft Tools  
In Pack

Kenny Walker, bright-looking 17-year-old youth, who was arrested last October in possession of auto-sterilizer, cane, pacifiers and celluloid such as used by housebreakers for slipping open locks, posed a difficult problem for Mr. Justice Houston in criminal court Tuesday.

The youth who is serving an 18-month term at the Fort, took on himself all the blame for the trouble. "I shared my blame with him, but I never let him know what I had in my pack," he added in claiming ownership of all the damaging exhibits.

The two men had taken a room in town when the police took the youth and the knapsack. In the police station last October, when he disappeared—a point that was stressed against him by Crown Prosecutor J. W. McLaughlin, K.C.

"I know you are lying," declared the judge after questioning Walker about his travels and relations with Lacey.

**KNEW NOTHING**  
Argued defence counsel Hugh Kitchin, K.C. "Every time the witness has lied like a little girl, and I think he may have done so—your Honor cannot convict him on suspicion. You are not to be guided by evidence—whether true or not—that the pack and its contents belong to the boy and Lacey knew nothing about them."

Mr. Justice Houston ordered a transcript to be made of the evidence and reserved his decision until Thursday. Lacey, who seemed to be struggling with sleep, dozed unconsciously for several short naps in the dock, while his fate was being argued.

## ALBERTA MOTOR ASSOCIATION ROAD REPORTS

**Safety Signal:** One accident may be too many—it may be your last.

Wednesday's road report: Northern Alberta roads are covered with snow. Four inches of snow in all main highways are fair to good, but rough. Dirt roads throughout the province are very bad—frozen and rough.

Note: From 2 p.m. Wednesday until 6 a.m. Friday the bus on truck operation on Alberta roads will be limited to allow halloids only to travel on the roads.

## VENDORS CLOSE FOR ELECTIONS, EASTER HOLIDAY

Here's a tip for you. If you are contemplating laying in a supply of liquor for the next several days, do so now, as opportunities will be limited from now until next Tuesday.

Friday is Good Friday and a statutory holiday and therefore vendors' stores and beer parlors are closed.

They will be open as usual on Saturday and on Monday next, as the vendors' stores usually carry on the same as other mercantile establishments.

But, next Tuesday, March 26, is Dominion general election day and therefore, by statute, all vendors' stores and beer parlors will be closed.

## Ukrainian Gets Suspended Count In Perjury Case

Konstantin Korka, a strongly built Ukrainian workman from Calder who admitted that he had been living on relief "petty swindler" since 1932, admitted to Mr. Justice Houston in criminal court Wednesday he had committed perjury in making out a naturalization application.

It is his sworn statement that he had never been in receipt of relief of any kind.

Korka's plea for leniency—given through an interpreter after being in the country for 13 years—was that his friend who knew English better than he had told him it was all right to sign the affidavit. "I signed it because I was afraid," he said.

As Korka has a wife and three children and his companion has been in another court with a suspended sentence, Mr. Justice Houston gave Korka a suspended sentence of 18 months on the charge of perjury.

Regular meeting of the Edmonton Hospital Board at the Royal Alexandra hospital has been postponed until Friday, March 29.

P.C., Dr. A. E. Archer,  
Dr. A. Blain Speak

Farmer of Western Canada are benefiting and will benefit still further under the Liberal government's Canada-United States trade treaty, which gives a new market for their products, said Hon. J. A. MacKinnon, Minister of Agriculture, in a statement today.

The meeting was attended by more than 200 and the speakers, Mr. MacKinnon, Dr. A. E. Archer, Liberal candidate for Vegreville, and Hon. J. A. MacKinnon, Minister of Agriculture, were enthusiastically received.

Major Graham was chairman. For Saskatchewan, the point was made that the treaty would increase the opportunities of Western Canadian farmers.

## NATIONAL UNION

The need for national union in order to give the national in Canada was stressed by Mr. MacKinnon, who pointed out that Hon. Ernest Lapointe, Hon. P. J. Carlin and Hon. C. G. Power had risked their political careers in order to give the national in Canada.

The Dominion government had taken pains to see that men of the Canadian Active Service Force were given the opportunity to register their vote in the Dominion of Canada.

The air training scheme, through stationing of hundreds of Canadian airmen in England, would be a tremendous benefit in this city and district, he said.

Amusing a charge that Prime Minister Mackenzie King had refused an offer to resign for the position of training plan in Canada, Mr. MacKinnon said that the only point on which the premier had opposed it was his stipulation that the military installation in Canada must be under control of the Dominion.

Besides a cattle market, farmers benefited under the trade agreement with the United States through lowering of tariffs on their farm implements, he said.

The proposed national mortgage bank would be of immense value to farmers, he stated, adding that it was essential for the present due to the exigencies of war financing.

**DROUTH RELIEF**  
Dr. Archer said the gathering that the Liberal government had provided drouth relief through a wheat bonus to dry areas and fixed minimum price for all wheat produced. Under the government's bonus agreement, a market was established in Great Britain for 300,000,000 pounds of wheat a year at a price, if this market was held in the war, it likely would become permanent after the war, he said.

Western farmers were represented on the board, headed by Hon. J. G. Taggart, Saskatchewan minister of agriculture, he added.

Senators Blue spoke in both French and English, congratulating the Liberal government for the support of the candidates and stressing the issues of the campaign.

**Registered unemployed** in Alberta on Saturday last totaled 191 men and 128 women, according to figures released Wednesday by the Alberta Employment Service. This is a decrease over the previous week when the total was 210.

The city had the largest number of unemployed registered, with 3,266 and Calgary with next with 2,413. Lethbridge had 474 and 37 women. Medicine Hat 425 men and 17 women and Drumheller 191 men and one woman. Of the total registered 6,537 were men and 728 women. During last week's figures were found for 197 men and 114 women.

# CITIZEN GETS SURPRISE WHEN HEARS BROTHER

Orson Welles' now famous broadcast of a mythical Martian invasion gave some one more of a severe shock, but it did not affect Charles Frost of 1075 4th Avenue, half as much as he received Sunday evening when he heard his brother, George, was in Canada.

During part of the program the announcer interviewed a soldier in the Salvation Army but at the time he was in the hospital, his brother, George, was in the hospital, his brother, George, was in the hospital, his brother, George, was in the hospital.

George is an air engineer with the RCAF and is a former member of the Edmonton Airmen's Club. He was in the hospital, his brother, George, was in the hospital, his brother, George, was in the hospital.

## Through The Mill

Some friends came up to see her and they were pretty much as they brought some rationals along with them. About this time some milk came out in a kick and the cop came out.

There was a little difference of opinion as to what they found. One cop said there were at least 100 in the mill, but the other said there were only 100 in the mill, but the other said there were only 100 in the mill, but the other said there were only 100 in the mill.

After some difficulty the cops removed the drinks and then charged the woman with contributing to the delinquency of her children by permitting such going on. She argued, but police ordered Wednesday and pleaded not guilty.

Her story was that she hadn't invited them, that she had just dropped in, that she figured they would be any minute, that she had been in the mill, that she had been in the mill, that she had been in the mill, that she had been in the mill, that she had been in the mill.

Five appeals pleaded guilty to charges of vagrancy and were given suspended sentences of two years on condition that they leave town immediately.

**Output of the city power plant** in March 17 was 1,500,000 kilowatts, higher than that of the same period last year, being 15,346,100 kilowatts. There are 10,137 telephone lines in service in the city, against 16,385 at this time last year.

# WORKMAN ASKS \$15,217 FOR LOSS OF ARM

Edwin Hodgson, a young workman from a city packing plant, dropped into the witness box in a family law case before Mr. Justice Ties on Wednesday morning with the intention of asking for \$15,217 for the loss of his right arm.

In addition to hospital and medical expenses and time lost from work, Mr. Hodgson says he had to accept work at a lower rate of pay owing to his incapacity.

S. A. McQuig, K.C., and J. R. Parsons are appearing for Hodgson and Neil D. Maclean, K.C., the two defendants.

# BURNED OUT FAMILY ASKS ASSISTANCE

Annual for assistance has been received by the Edmonton branch of the Canadian Red Cross society from a family in Tonsawaka, Alta., about 50 miles south of Edmonton, who lost everything in a fire in their house Monday.

Any help which can be given will be appreciated by the family, writes the father and mother, who lost everything in a fire in their house Monday.

There are four children in the family, besides the father and mother. The two boys are 14 and 16 and the girls 12 and 10.

Contributions for the needy families who have been burned out of their homes are being accepted at the Red Cross office, 308, Civic Block, Mr. Muz reported.

## A. KUHNI, Federal Liberal

candidate for the Jasper-Edmonton riding, addressed a well-attended meeting at Stony Plain Monday night, dealing with the various issues in the Federal election campaign. Other speakers were George J. Ryan and J. Boyd McBride, K.C.

# MINISTER HELPS UNFIT SOLDIERS IN EMPLOYMENT

Many of the Canadian Active Service Force men who were discharged from the service due to their failure to pass the final, rigid medical examination were promised greater opportunities in employment, by the Minister of Agriculture, Hon. J. A. MacKinnon, P.C., minister without portfolio in the Dominion government and federal Liberal candidate in the Jasper-Edmonton riding.

The new wartime complaint that when they returned, they had passed the first medical examination and were given up jobs to join the service. One man said he had sold his farm.

A delegation met Mr. MacKinnon, comprising Ted Williams, N. H. McFarlane and W. C. Crompton, who had been in the service, and placed their case before him. Mr. MacKinnon promised that he would get in touch with Ottawa immediately in order to see what could be done for them.

## RUSSIA TURNS THUMBS DOWN ON ALLIANCE

Says Pact Among Scandinavian States Aimed at Soviet

MOSCOW, March 20.—Russia has turned thumbs "even on any defensive alliance among Scandinavian states and Finland," said the official Russian news agency, Tass, after the pact among Scandinavian states aimed at the Soviet Union had been announced.

"The foreign press alleges that regulations are going on among Finland, Sweden and Norway on constituting of a so-called 'defensive alliance' for the purpose of military protection of the frontiers of Finland," said the announcement. "It is also alleged that the Soviet Union does not object to a 'defensive alliance' among Finland, Sweden and Norway. This is authorized to state that these reports on the attitude of the Soviet Union do not correspond to the facts."

### ARMED AGAINST U.S.S.R.

Tass added that statements in the Norwegian parliament had made it clear that such a combination "would be aimed against the U.S.S.R. and would thus be in violation of the 'Finland-Russia peace treaty'." Article 3 of the March 12 treaty at Moscow, which ended the months of war between Finland and Russia, binds each party to join any coalition against the other.

"Some Finnish and Scandinavian quarters had held that a defensive alliance, if not directed against the Soviet Union, would not be barred by this article."

**May Press Pact Despite Russia**

STOCKHOLM, March 20.—Intimations that a suggested defensive pact among Finland, Sweden and Norway may be pressed despite Russia's disapproval, said Tass, would be aimed at her came today from official Scandinavian quarters.

"The Soviet view appears founded on a misunderstanding of the Swedish Foreign Minister Christian Günther," the suggested alliance could not be other than a purely defensive arrangement in which the three countries would join in common resistance to any attack."

## RUSSIAN OIL MAY BE USED TO WOO ITALY

BERLIN, March 20.—Russian oil was mentioned last night as an immediate reason for Russia and Italy to come together in a better understanding as a result of Monday's Moscow peace conference between Adolf Hitler and Benito Mussolini. Russia always had been a factor in Italy's foreign policy, but informed quarters said Italy had not been interested in contracting for it when the only feasible means of transport was through the Black Sea and the Danubian.

Also Italy regarded the Soviet Union as an ungrateful trade partner and an even worse political associate.

But Germany's new friendship with Russia, elimination of Poland as a buffer state, and the development of land transportation facilities have made Russian oil more accessible to Italy, it is claimed here. German economic experts claim there is no question as to a secure land route for the transportation to Italy.

## 44 FORMER RED DEPUTIES FACE TRIAL IN PARIS

PARIS, March 20.—Forty-four Communist members of the French Chamber of Deputies went on trial today before seven military judges in a courtroom packed with reporters and lined with soldiers, wearing steel helmets and carrying bayoneted rifles.

Thirty-five defendants answered the indictments. They are accused of being traitors and of having been active in the French Resistance movement. A huge petitioned over the names of a dozen-veteran clerk "have called out the name of a dozen-veteran clerk."

The other 35 are charged with having reconstituted the Communist party, which was outlawed after Russia and Germany agreed a non-aggression pact. These 35 face maximum penalties ranging from one to five years imprisonment.

**Surplus Predicted In Manitoba During Next Fiscal Year**

WINNIPEG, March 20.—Special treasurer Stuart Carson predicted a surplus of \$775,780 for the next fiscal year. The 1940-41 year was estimated at \$195,000 and ordinary expenditures at \$142,000. Following the custom of previous years, the surplus will be devoted to payment of part of the provincial share of direct relief.

## Over 1,000,000 Chinese Regular Troops in North China Admit Japanese

By J. D. WHITE

Associated Press Staff Writer PEKING, North China, March 20.—There are still more than 1,000,000 regular Chinese troops in North China, admits a survey prepared by Japanese army headquarters here.

After 2½ years of fighting, the Japanese army has light on the Japanese army's own press reports during that period. Since the Japanese began on July 7, 1937, few engagements have been fought where the Japanese were not routed. "Given a stunning blow, or most frequently 'wiped out' or annihilated."

**F. D. R. DENIES STATEMENT ON JAMES FARLEY**

WASHINGTON, March 20.—President Roosevelt yesterday repudiated a much-misquoted article in which he was quoted as stating his view of 1940 elections.

The article, by Columnist Ernest Lindley, was published March 4 and declared that President Roosevelt, in a conversation with a southern legislator, had said: "That he was not going to run for a third term."

That he was not going to run for a third term. The White House secretary of state would be a good man for the presidency. For the vice-presidency because the nomination would stir up a lot of religious prejudice and emotion and would lead some people to say: "We were using C. D. Hall as a stalking horse for the pope."

At the press conference yesterday, Mr. Roosevelt said he never had said such a thing about Farley, who is a member of the Catholic church, and that the rest of the column was equally false.

## YOUTH TO GET OPERATION FOR CRIME TRAITS

OKLAHOMA CITY, March 20.

A 17-year-old juvenile reformatory prisoner was granted a 30-day leave by Governor Leon Phillips yesterday to permit him to participate in a psychological test which will obliterate criminal traits.

Psychiatrists told the governor the youth was kicked in the head by a mule and that they believe pressure on the brain was causing his desire to steal.

## SCRUTINEERS TO CHALLENGE ENEMY ALIENS

WOODSTOCK, Ont., March 20.

R. E. Bean, returning officer for Oxford constituency, said yesterday that responsibility for challenging the right of enemy aliens to vote in the 1940 election will rest on party scrutineers.

It has been found that a number of unqualified enemy aliens who are reporting regularly to police and being watched by the authorities, he said. Bean said he will compile a list of these persons and send it to the authorities.

**120,000 Seals Are Killed During Week**

ST. JOHN'S, Nfld., March 20.—Newfoundland's sealing fleet, 600 ships, hunting in the ice floes off the coast, is expected to kill 120,000 seals in the next week. The hunt got under way little more than a week ago.

Man's "wing-bird" is at the top of the windpipe, a bird is at the bottom.

## STEVEN'S HAS PROPOSAL TO FINANCE WAR

NORTH KAMLOOPS, B.C., March 20.

A proposal to finance the cost of the war was advanced here last night by Hon. H. M. Stevens, Conservative member for Kamloops, in the federal election.

Mr. Stevens said the war effort could be financed for the first year by a bond issue of \$100,000,000.

Such an action, he explained, would not impinge on the legal gold reserve or the soundness of Canada's financial position because the gold reserve is at present more than double the 25 per cent required by international agreement while the net circulation per capita is about half that of Great Britain, United States and Australia.

**Pilot Freed of Assault Charge In Plane Death**

NEW YORK, March 20.—Charges of felonious assault against Joseph R. Brown, pilot and flight instructor, who figured in a spectacular mid-air struggle with a passenger plane during a fight over New York last Thursday, were dropped yesterday. Ensign Joseph R. Brown, 24, was charged with the death of a passenger plane.

Such an action, he explained, would not impinge on the legal gold reserve or the soundness of Canada's financial position because the gold reserve is at present more than double the 25 per cent required by international agreement while the net circulation per capita is about half that of Great Britain, United States and Australia.
